Headteacher Message

This week we had a record number of children coming to me for prizes and stickers for earning 10 dojos or more! This was a lovely start to the week and a very nice way to celebrate how well our children are behaving and learning. The prize drawer has had to be restocked as a result! Well done to any children who earned these prizes and I hope to see them many times over the coming weeks.

Thank you to the parents that dropped in to see our teachers during the parent forum last week. We appreciate the time you took to come and see your child's classroom and teachers. We are also very grateful for all the positive feedback you shared with us. If you were unable to attend and have any questions or concerns please do not hesitate to contact us. We are here to help!

SchoolPing - our new app - has launched and you should now be receiving messages, alerts and newsletters on your phone. This new tool has been implemented to help us improve communication between home and school. We are always striving to improve and want to make sure you receive timely information. If you have any technical issues or need help setting this up on your phone please contact the school office for advice.

Thank you, Miss Edwards

FGA Football Team

On Thursday, FGA Football Team ventured to Crossford Bridge playing fields to take part in the annual football tournament. Their first match was against OLOL. FGA showed off their footballing skills and managed to score two wonderful goals. Their second game against Worthing Primary, demonstrated what a great team they are. They represented their school well and never gave up. Well done! Miss Tranter and Mrs Jennings are extremely proud of you all.

Year 4

Year 4 have been very lucky this week and have had a visit from an Athenian lady and a Spartan lady. We asked the women what their lives were like and then we compared them to each other. We also looked at ancient coins.

Science Club

Why do the colours spread? FGA's scientists observed the coloured sugar coating of the Skittles dissolve into tap water and then diffuse through the water – with spectacular results! They then investigated whether increasing the temperature of the water would speed up the reaction. The Science Club will be investigating more chemical reactions in the coming weeks.
