## Headteachers Comment

Thank you to everyone who attended the parent events this week. The children did a wonderful job of celebrating Harvest and they shared these celebrations with their families in their assembly. It was a lovely event!

Y4 parents attended a multiplication workshops to learn about how times tables can be taught and the expectations for Y4 children. All Y4 pupils are required to take part in the national multiplication screening check towards the end of Y4 and are expected to answer a range of multiplication questions accurately and at speed. This data is collated nationally to look at the performance of each child. Children can access Times Table Rockstars at home to help them learn the ones they struggle with and the repetition is essential. If you have any problems logging on, please don't hesitate to contact your teacher for help.

Parents' evening is on Monday and appointments need to be booked beforehand. This is an online meeting that you can access via School Cloud. Please contact the school office as soon as possible if you haven't managed to book your appointment. Many Thanks.

## EYFS

The EYFS children have helped harvest the pumpkins from the school garden. Look how big they have all grown!

## Nursery

Nursery have been busy learning about Harvest time. They loved being farmers and harvesting a collection of vegetables which they chopped, peeled and cooked to make Autumn vegetable soup. They have also been exploring how Christians celebrate the Harvest festival.

## Year 6

The Y6 children have been busy learning about topography in Geography. They have looked at the ways different ways height can be shown on a map. To support their understanding of contour lines they made models of hills and mountains from clay, cut them into sections and drew round and labelled each section to represent the height of the land.
